

MoneyBot Product Roadmap — 2026

#1 Goal: MoneyBot becomes the default financial literacy platform for K-12

No pilot. Not just a tool. The financial education OS. The **Infrastructure!**

By December 30th, 2026:

- MoneyBot is embedded in daily school workflows
- Districts renew automatically
- Banks, states, and sponsors treat MoneyBot as required infrastructure
- Students associate “learning money” with *MoneyBot* the same way they associate Spanish with Duolingo.

1.

Quarterly Strategy Overview

Q1 (Jan–Mar) | Foundation → Proof

“Make it undeniable that MoneyBot works.”

- Platform stability and production reliability
- Simple teacher onboarding and classroom setup
- Students experience an early financial “aha” moment
- Engagement loops and core gamification live
- Admin + district dashboards activated
- Clean pilots converting directly to contracts
- Initial CRA sponsor visibility and reporting

District takeaway:

MoneyBot is already working and ready to expand.

Q2 (Apr–Jun) | Acceleration → Lock-In

MoneyBot Product Roadmap — 2026

“Make schools dependent on MoneyBot.”

- Multi-school rollouts across the district
- Daily usage patterns established
- Deeper gamification and habit-forming engagement
- Clear sponsor ROI and impact reporting
- District- and state-level distribution underway

District takeaway:

MoneyBot becomes embedded in daily instruction.

Q3 (Jul–Sep) | Scale → Authority

“Make MoneyBot the obvious choice.”

- Back-to-school district-wide deployment
- Standardized implementation across schools
- Longitudinal student growth data visible
- Public proof: case studies, leadership confidence
- MoneyBot recognized as category authority

District takeaway:

MoneyBot is the proven, trusted standard.

Q4 (Oct–Dec) | Default Status

“Make opting out feel silly & irresponsible.”

- Renewals and multi-year agreements finalized

MoneyBot Product Roadmap — 2026

- Statewide frameworks and long-term planning
- Institutional trust with boards and leadership
- Year-end impact reports delivered
- MoneyBot positioned as default infrastructure

District takeaway:

MoneyBot is no longer optional — it's expected.

MONTH-BY-MONTH EXECUTION

JANUARY — Pilot Ignition

Theme: “Get live. Get real data.”

Product

- Finalize **Platform v1 (Pilot-Grade Stability)**
- Teacher onboarding under **5 minutes**
- Student onboarding under **2 minutes**
- Google + Clever auth fully reliable
- Class creation, join codes, assignments frictionless

Experience

- First **MoneyScore baseline** for every student
- Students understand *why* MoneyBot exists within 10 minutes
- Teachers feel *relief*, not workload

Outcome

- Clean pilots launched
- Zero confusion
- Early testimonials forming

MoneyBot Product Roadmap — 2026

FEBRUARY — Feedback → Refinement

Theme: “Tighten everything.”

Product

- Refine UI/UX based on real classroom behavior
- Reduce clicks, reduce confusion, reduce text
- Fix edge cases in auth, assignments, dashboards

Learning Loop

- Improve intro module for **instant clarity**
- Make MoneyScore feel personal and motivating
- Introduce early **streaks + rewards**

Outcome

- Students want to return
 - Teachers trust the system
 - Product feels intentional
-

MARCH — (Game Szn) Aha Moment Engineering

Theme: “Make money click.”

Product

- Introduce first **simulator/game** (spending, saving, tradeoffs)
- Optimize **10-minute ‘Money Aha’**
- Clear before/after MoneyScore deltas

Engagement

- Daily engagement loop:
 - Learn → Act → Reward → Progress
- Students start talking about MoneyBot outside class

Outcome

MoneyBot Product Roadmap — 2026

- Proof of learning
 - Proof of engagement
 - Schools see value beyond compliance
-

APRIL — Expansion Inside Schools

Theme: “Go deeper, not wider (yet).”

Product

- Multi-class support per teacher
- Better assignment scheduling
- Classroom discussion prompts built-in

Admin Layer

- Admin can:
 - View usage
 - See engagement heatmaps
 - Track MoneyScore growth

Outcome

- Admin buy-in
 - Schools see expansion potential
 - Contract conversations begin
-

MAY —

Theme: “Make it addictive (in a good way).”

Product

- Full **streak system**
- Badges, milestones, MoneyScore levels
- Student profile becomes identity-based

MoneyBot Product Roadmap — 2026

Experience

- MoneyBot feels closer to Duolingo than a worksheet
- Students log in without being told

Outcome

- Daily Active Usage rises
 - Clear retention signals
 - Strong renewal leverage
-

JUNE — Dashboards & Monetization

Theme: “Turn usage into leverage.”

Product

- **District Dashboard**
 - Schools
 - Students
 - Engagement
 - MoneyScore growth
- **Sponsor Dashboard**
 - Reach
 - Impact
 - CRA-aligned metrics

Monetization

- Formalize:
 - Per-student pricing
 - District pricing
 - Sponsor-subsidized models

Outcome

- MoneyBot becomes fundable infrastructure
 - Banks see clear ROI
 - Districts see accountability
-

MoneyBot Product Roadmap — 2026

JULY — Scale Rollouts

Theme: “Multiple schools. One system.”

Product

- Multi-school district onboarding
- Bulk rostering
- Summer usage modes (lightweight, optional)

Operations

- Playbooks for:
 - Teachers
 - Admins
 - Sponsors
- Implementation time < 1 week per school

Outcome

- First true scale tests
 - Operational confidence
 - Fewer founder bottlenecks
-

AUGUST — Back-to-School Domination

Theme: “Be everywhere.”

Product

- Polished onboarding flows
- Teacher resource library
- In-product co-pilot guidance

Distribution

- District-wide launches
- CRA sponsors fund entire districts
- MoneyBot positioned as *default*

Outcome

MoneyBot Product Roadmap — 2026

- Massive student intake
 - Daily engagement established early
 - Brand recognition spikes
-

SEPTEMBER — Proof → Authority

Theme: “Show, don’t sell.”

Product

- Longitudinal MoneyScore reporting
- Clear learning outcomes over time
- Exportable reports for districts & sponsors

Authority

- Case studies
- District testimonials
- Sponsor endorsements

Outcome

- MoneyBot becomes the reference point
 - Inbound interest increases
 - Less selling, more selecting
-

OCTOBER — Category Ownership

Theme: “Own the narrative.”

Brand

- MoneyBot = *financial literacy*
- Thought leadership content
- Conference presence
- Media coverage

Product

MoneyBot Product Roadmap — 2026

- Feature freeze on core
- Stability, polish, reliability

Outcome

- Market sees MoneyBot as inevitable
 - Competitors look small or irrelevant
-

NOVEMBER — Renewals & Lock-In

Theme: “Make leaving painful.”

Product

- Renewal dashboards
- Year-over-year growth reports
- Expansion offers baked into renewals

Contracts

- Multi-year agreements
- District-level standardization
- State conversations begin

Outcome

- High renewal rates
 - Predictable ARR
 - Strong investor confidence
-

DECEMBER — Default Infrastructure

Theme: “Set the board for 2027.”

Product

- Platform stability at institutional level
- Clear roadmap for next year
- Advanced features queued (AI content creation, deeper personalization)

MoneyBot Product Roadmap — 2026

Positioning

- MoneyBot treated like:
 - Google Classroom
 - Clever
 - PowerSchool (but for money)

Outcome

- MoneyBot is no longer optional
 - 2027 becomes about scale, not survival
-

THE GOAL

By the end of 2026:

- Schools **expect** MoneyBot
- Students **identify** with MoneyBot
- Sponsors **depend** on MoneyBot
- Districts **renew without debate**

25 Champion Pilots
